I was able to record some of last night's service. It was like a giant heavily choir in there last night 🔥

Sheena! You are amazing. I was lamenting that the worship was recorded. We are listening to the whole thing now on the way to the zoo. It was so awesome. I am geeking out on the music again this morning!!

Maybe we should record worship nights from the board? Those would be amazing to release to the bride tribe, and particular, the spontaneous and prophetic portions.
