Hey there. Elisabeth was asking me if the band needs to check in Wednesday night before the conference. I told her I needed to find out from you guys if we need to do a sound check. The night before? If so then we will need to check in Wednesday night. Let me know so I can inform her. 🙏

What do you think Marc, is a sound check realistic that night considering the setup schedule?

Marc [REDACTED]

I prefer a sound check on Wednesday night as to not rush in the morning. But up to you.

Would you want to have the whole band present?

Marc [REDACTED]

If possible. But we could get by with a quick check in the morning since it is all saved.

Dan let me know. It will mean paying for one more night in hotel for a few of us.

Hey there Mark and Dan... I have a choir rehearsal scheduled for this Sunday after church. I used to be able to shut down the system myself in the garage. If that is going to be too much of an issue, I can bring along a little amp to plug the keyboard and mic directly into so I don't have to use the system at all. But I wanted to run that by both of you just so you know. I'll also need to know what to do to lock up and shut down the room and doors etc.

Hey Sheena! Please, forward this question to Christian, because she is going to be directing traffic on scheduling needs like this. Thanks!! She's now handling all of these kinds of things.

No issue as far as the boards. It will be the exact same process except no speakers to turn off.

Also, [redacted] will be available to support even after Marc leaves

Hey guys! Let's plan on one more 8 am call time this week. We are updating the bugs from last time, but it will be good to have the extra prep time in the morning. Blessings!

Ok

It's probably wise, especially since the in ears are still being dialed in...
